CHAPTER I	INTRODUCTION	02
CHAPTER II	REVIEW OF LITERATURE 2.1 Occurrence of enteric bacterial diseases of Poultry 2.1 Isolation and Identification of the diseases by pathological changes- 2.2.1 colibacillosis 2.2.2 Salmonellosis 2.2.3 Grumboro Disease 2.2.4 Omphalitis 2.2.5 Coccidiosis 2.2.6 Mycoplasmosis	03-05
CHAPTER III	MATERIALS AND METHOD Materials Study area Study population Data collection Method Postmortem examination	06-07

CHAPTER	SUBJECT	PAGE NO.
CHAPTER IV	RESULTS & DISCUSSIONS 4.1 Identified Diseases- Colibacillosis Salmonellosis Infectious bursal disease Mycoplasmosis Omphalitis Coccidiosis	08-14
CHAPTER V	CONCLUSION	15
CHAPTER VI	REFERENCES	16-18

LIST OF THE TABLES

Table	Title	Page No.
01	Age wise mortality of broiler chickens at Muktagacha in Mymensingh.	08
02	Occurrence of infectious diseases of broiler on the basis of etiology.	11
03	Percentage of infectious diseases in broiler chickens at Muktagacha in Mymensingh.	14

LIST OF THE FIGURES

Sl. No.	Title	Page
01	Fig I: A typical lesion of acute colibacillosis containing dilatation of the last part of the intestine.	08
02	Fig:II :- Age wise mortality of poultry chickens at Muktagacha in Mymensingh.	10
03	Fig III: A typical lesion of Salmonellosis (focal area of necrosis, and glistening of the surface of the liver).	10
04	Fig IV: Occurrence of infectious diseases in broiler chickens at Muktagacha in Mymensingh.	11
05	Fig V: A typical lesion of Gumboro disease (pin point hemorrhage found in the mucous membrane of swollen bursa).	12
06	Fig VI: A typical lesion of Mycoplasmosis (congested lung).	12
07	Fig VII: A typical gross findings of Omphalitis due to colibacillosis.	13
08	Fig:VIII: A typical lesion of Coccidiosis.	13
09	Percentage of infectious diseases in broiler chickens at Muktagacha in Mymensingh	14

ACKNOWLEDGEMENT

All praises go to the Almighty Allah, the creator and supreme ruler of the Universe, who enabled the author to complete the work successfully.

The author expresses his sincere gratitude, humble respect and immense indebtedness to my reverend teacher and internship supervisor Lecturer, DR. Shahneaz Ali Khan, Dept.of Physiology Biochemistry and Pharmacology , Chittagong Veterinary and Animal Sciences University for his scholastic guidance, kind cooperation, sincere help, valuable suggestions, inspiration, constructive criticism, who was involved with this study from its inception.

He is also grateful to Dr. Rana Miah ULO and Dr Helena Begum veterinary surgeon Muktagacha, Mymensingh. Who's helped directly or indirectly during investigation of samples?

The author takes the opportunity to express his deepest sense of respect and appreciation to various farm owner of Muktagacha, Mymensingh for their kind help, proper instruction and co-operation during the entire study period.

Last but not least, the author extended his appreciation to all of his teachers and his parents for their unforgettable support, suggestions, criticisms, cordial help and inspiration regarding my study from its inception to the last.

The Author
