

Table of Contents

Contents	Page No
Title Page	i
Authorization	ii
Signature Page	iii
Acknowledgements	iv
List of Publications	v
List of Tables	vi
List of Figures	vii
List of Abbreviations	viii-ix
Abstract	x
Chapter-1: Introduction	1-2
Chapter-2: Rreview of Literature	3-13
2.1 Microalage and Their Potentiality	3
2.2 Growth Phases of Microalgae	4
2.3 <i>Scenedesmus</i> sp.	5-6
2.4 Bold Basal Media	7
2.5 Effect of Different Nutrients on Microalgal Growth and Biochemical Composition	8
2.5.1 Phosphorus	8
2.5.2 Trace Metals	9
2.6 Effect of Nitrogen on Microalgal Growth and Biochemical Composition	10
2.6.1 Proximate Composition	10-11
2.6.2 Cell Growth	12
2.6.3 Pigments	12
2.6.4 Biochemical Properties	13
Chapter-3: Materials and Method	14-22
3.1 Microalga Collection and Culture	14
3.2 Experimental Design	14
3.2.1 Culture Media Preparation	15
3.3 Determination of Growth Curve	16
3.3.1 Determination of Cell Density	16

3.3.2	Determination of Optical Density	16
3.3.3	Determination of Biomass	16-17
3.4	Specific Growth Rate and Cell Doubling Time Estimation	17
3.5	Productivity Estimation	17
3.5.1	Volumetric Productivity	17
3.5.2	Areal Productivity	17-18
3.5.3	Lipid Productivity	18
3.6	Determination of Pigments	18
3.6.1	Determination of Chlorophyll a, b	18
3.6.1.1	Microalgae Extraction	18
3.6.1.2	Determination of Chlorophyll a and b (Dichromatic method)	18-19
3.6.2	Determination of Carotenoid	19
3.6.3	Determination of Phycobiliproteins	19
3.6.3.1	Phycobiliprotein Extraction	19
3.6.3.2	Spectrophotometric Estimation of Phycobiliproteins	19-20
3.7	Determination of Proximate Composition	20
3.7.1	Protein Determination	20
3.7.2	Lipid Determination	20-21
3.7.3	Carbohydrate Determination	21
3.8	Fatty Acid Analysis	21-22
3.9	Statistical Analysis	22
Chapter-4: Results		23-34
4.1	Growth Curve	23-25
4.2	Pigment	25
4.2.1	Chlorophyll a, b	25-26
4.2.2	Carotenoid	27
4.2.3	Phycobiliproteins	27-28
4.3	Productivity	29-30
4.4	Proximate Composition	30-31
4.5	Fatty acid Composition	31-34
Chapter-5: Discussion		35-39
5.1	Microalgal Cell Growth	35-36

5.2	Pigment	36-37
5.2.1	Chlorophyll a, b	36
5.2.2	Carotenoid	36-37
5.2.3	Phycobiliproteins	37
5.3	Productivity	37-38
5.4	Proximate Composition	38-39
5.5	Fatty Acid Composition	39
Chapter-6: Conclusions		40
Chapter-7: Recommendation and Future Perspectives		41
References		42-59
Appendices		60-79
Appendix A	Media Preparation and Stock Culture of Pure <i>Scenedesmus</i> sp.	60
Appendix B	Experiment Set up for Growth Curve Analysis	60
Appendix C	Measurement of Cell Density, Optical Density and Dry Biomass	61
Appendix D	Extraction of Chlorophyll	61
Appendix E	Microalgae Seed Inoculation and Mass Culture	61
Appendix F	Extraction for Carotenoid and Phycobiliprotein Estimation	62
Appendix G	Proximate Composition Analysis	62
Appendix H	Fatty Acid Analysis	62
Appendix I	One-way Analysis of Variance Examining Cell Density of <i>Scenedesmus</i> sp. in Five Treatments	63-64
Appendix J	One-way Analysis of Variance Examining Optical Density of <i>Scenedesmus</i> sp. in Five Treatments	64-66
Appendix K	One-way Analysis of Variance Examining Biomass of <i>Scenedesmus</i> sp. in Five Treatments	66-68
Appendix L	One-way Analysis of Variance Examining Chlorophyll a of <i>Scenedesmus</i> sp. in Five Treatments	68-69
Appendix M	One-way Analysis of Variance Examining Chlorophyll b of <i>Scenedesmus</i> sp. in Five Treatments	70-71
Appendix N	Regression Analysis between Cell Density and Optical Density	71-72

Appendix O	Regression Analysis between Cell Density and Biomass	72
Appendix P	Regression Analysis between Cell Density and Chlorophyll a	72-73
Appendix Q	Regression Analysis between Cell Density and Chlorophyll b	73
Appendix R	One-way Analysis of Variance Examining Carotenoid Content of <i>Scenedesmus</i> sp. under Five Treatments	73
Appendix S	One-way Analysis of Variance Examining Phycobiliprotein, Phycocyanin, Allophycocyanin and Phycoerythrin Content of <i>Scenedesmus</i> sp. in Five Treatments	74
Appendix T	One-way Analysis of Variance Examining Volumetric, Areal and Lipid Productivity, Specific Growth Rate and Cell Doubling Time of <i>Scenedesmus</i> sp. under Five Treatments	75
Appendix U	One-way Analysis of Variance Examining Protein, Lipid and Carbohydrate Content of <i>Scenedesmus</i> sp. in Five Treatments	75-76
Appendix V	One-way Analysis of Variance Examining Fatty Acids of <i>Scenedesmus</i> sp. in Five Treatments	77-79
Brief Bio-Data of the Student		80
